Themes

T001

Behavior, Testing and Modeling of
Structural Components and Systems

T002

Disaster Risk Reduction and Disaster Risk
Management for Earthquakes

T003

Engineering Seismology and Seismic
Hazard Assessment

T004

Innovative Design Approaches, Smart
Systems and Control Devices

T005

Performance-based Seismic Design and
Evaluation of Structures

T006

Special session: EJEC

T007

Special Session: RESET

T008

Tools and Techniques for Structural
Analysis for Earthquakes
